

# List of Figures

1.1	Masses, radii and orbital distances of exoplanets . . . . .	17
1.2	Schematic of a transiting planet . . . . .	20
1.3	Eccentric planet orbit . . . . .	24
1.4	Solar limb darkening in CoRoT bandpass . . . . .	26
1.5	Stellar radial velocity curve due to orbiting planet . . . . .	30
1.6	Mass-radius diagram of the transiting planets . . . . .	36
1.7	Detections in planet mass-separation . . . . .	38
2.1	An example of BT2 light curve . . . . .	45
2.2	NIF filtering . . . . .	47
2.3	NIF cumulative histograms of relative errors . . . . .	48
2.4	Flow chart of the IRF . . . . .	51
2.5	IRF filtering . . . . .	53
2.6	IRF cumulative histograms of relative errors . . . . .	54
2.7	Cumulative histograms of absolute errors . . . . .	57
2.8	The BT2 comparison sample . . . . .	61
2.9	BT2 light curves removed from comparison sample . . . . .	66
3.1	CoRoT-1's light curve . . . . .	75
3.2	IRF-filtered light curve of CoRoT-1b . . . . .	76
3.3	CoRoT-2's light curve . . . . .	77
3.4	IRF-filtered light curve of CoRoT-2b . . . . .	78
3.5	CoRoT-3's light curve . . . . .	79
3.6	IRF-filtered light curve of CoRoT-3b . . . . .	80
3.7	CoRoT-4's light curve . . . . .	81
3.8	IRF-filtered light curve of CoRoT-4b . . . . .	82
3.9	CoRoT-5's light curve . . . . .	83
3.10	IRF-filtered light curve of CoRoT-5b . . . . .	84
3.11	CoRoT-6's light curve . . . . .	85
3.12	IRF-filtered light curve of CoRoT-6b . . . . .	86
3.13	CoRoT-7's light curve . . . . .	87
3.14	IRF-filtered light curve of CoRoT-7b . . . . .	88

4.1	Stellar blackbody vs. planet emission in thermal flux and reflected light . . . . .	97
4.2	Secondary eclipse depth vs. albedo . . . . .	98
4.3	Secondary eclipse depth vs. planet radius, orbital distance, redistribution factor, albedo . . . . .	98
4.4	Thermal and reflected light contributions to secondary eclipse depth . . . . .	99
4.5	Planet thermal and reflected light vs. planet radius, orbital distance, albedo . . . . .	99
4.6	Flux variations due to CoRoT periodic eclipses in Earth's shadow . . . . .	105
4.7	Quality of IRF-filtering as a function of timescale and binsize . . . . .	110
4.8	Quality of IRF-filtering for CoRoT-1 . . . . .	111
4.9	Quality of IRF-filtering for CoRoT-2 . . . . .	111
4.10	CoRoT-1 original and filtered light curve . . . . .	113
4.11	Detection of CoRoT-1b secondary eclipse . . . . .	115
4.12	CoRoT-1b secondary eclipse and orbital phase variation in white light . . . . .	116
4.13	CoRoT-1b secondary eclipse and orbital phase variation in CoRoT red light . . . . .	117
4.14	CoRoT-1b orbital modulation in CoRoT green light . . . . .	117
4.15	CoRoT-1b orbital modulation in CoRoT blue light . . . . .	117
4.16	CoRoT-2 original and filtered light curve . . . . .	119
4.17	Detection of CoRoT-2b secondary eclipse . . . . .	121
4.18	CoRoT-2b phase-folded light curve in CoRoT white light . . . . .	121
4.19	CoRoT-2b phase-folded light curve in CoRoT red light . . . . .	122
4.20	CoRoT-2b phase-folded light curve in CoRoT green light . . . . .	122
4.21	CoRoT-2b phase-folded light curve in CoRoT blue light . . . . .	122
4.22	CoRoT-1b secondary eclipse depth vs. wavelength . . . . .	124
4.23	CoRoT-2b secondary eclipse depth vs. wavelength . . . . .	124
5.1	Distribution in temperature and metallicity of the calibration stars . . . . .	133
5.2	Standard deviation distribution of the EW ratios calibrated in $T_{\text{eff}}$ . . . . .	134
5.3	Inverse test of calibration . . . . .	136
5.4	Test of calibration on lower resolution spectra . . . . .	137
5.5	$T_{\text{eff}}$ derived vs. <i>rejt</i> value . . . . .	139
5.6	$T_{\text{eff}}$ derived from the EW calibrations . . . . .	142
5.7	$T_{\text{eff}}$ of the CoRoT planet host stars derived from the calibration . . . . .	145
6.1	MCMC flow chart . . . . .	164
6.2	Three independent 500000-step MCMC runs on the transit of CoRoT-2b . . . . .	175
6.3	2D MCMC chains and posterior distributions, with no prior on the $T_{\text{eff}}$ . . . . .	176
6.4	Posterior distributions of $T_{\text{eff}}$ , $M_{\star}$ , $R_{\star}$ , $a/R_{\star}$ and $i$ . . . . .	176
6.5	2D MCMC chains and posterior distributions, with a prior on the $T_{\text{eff}}$ . . . . .	177
6.6	2D MCMC chains and posterior distributions, with a prior on the $T_{\text{eff}}$ . . . . .	178
6.7	Posterior distributions of $T_{\text{eff}}$ , $M_{\star}$ , $R_{\star}$ , $a/R_{\star}$ and $i$ . . . . .	178
6.8	Plot of the best transit models of CoRoT-2b from literature, LMA, MCMC . . . . .	179
