

# List of Tables

1.1	Planet parameters from detection methods . . . . .	19
2.1	Percentages of contaminant flux . . . . .	44
2.2	Transit parameters . . . . .	60
2.3	Star-planet parameters . . . . .	60
3.1	Host star and planet parameters of CoRoT-1b. . . . .	76
3.2	Host star and planet parameters of CoRoT-2b. . . . .	78
3.3	Host star and planet parameters of CoRoT-3b. . . . .	80
3.4	Host star and planet parameters of CoRoT-4b. . . . .	82
3.5	Host star and planet parameters of CoRoT-5b. . . . .	84
3.6	Host star and planet parameters of CoRoT-6b. . . . .	86
3.7	Host star and planet parameters of CoRoT-7b. . . . .	88
4.1	Expected secondary eclipse depth and phase range for CoRoT-1b to 9b	101
4.2	CoRoT-1b secondary eclipse and phase modulation amplitudes . . . . .	118
4.3	CoRoT-2b secondary eclipse and phase modulation amplitudes . . . . .	120
5.1	$T_{\text{eff}}$ derived from the CORALIE spectra . . . . .	137
5.2	$T_{\text{eff}}$ of CoRoT 1b to 9b derived from the calibrations . . . . .	144
5.3	List of the spectral lines . . . . .	148
5.4	List of the calibration stars . . . . .	149
5.5	Plot of the equivalent width line-ratios calibrated against temperature .	150
5.6	List of the line ratios and their calibration coefficients . . . . .	157
6.1	Parameters of CoRoT-2b derived from MCMC with no prior on $T_{\text{eff}}$ . . . . .	173
6.2	Parameters of CoRoT-2b derived from MCMC with a prior on $T_{\text{eff}}$ . . . . .	174
6.3	Comparison table of the parameters of CoRoT-2b . . . . .	179
A.1	Table of constants . . . . .	190
