

Curriculum Vitae

Family name, First name: Mayne, Nathan, **Date of Birth:** 28/12/79

ORCID: <https://orcid.org/0000-0001-6707-4563>, **Group URL:** <http://exoclimatology.com/>

Current Institute: University of Exeter, College of Engineering, Mathematics and Physical Sciences.

Academic Career: Summary

The main goal of my current research is both to understand the controlling factors behind the observed diversity of exoplanets (planets orbiting distant stars), and to place them in context with the planets of our solar system. I aim to build interpretive and predictive models (both simple & complex) & develop theories to exploit cutting-edge observations and, crucially, create a two-way knowledge transfer link with scientists studying the Earth's climate.

The research programme I lead is focussed on developing a state-of-the-art theoretical framework to study both gas giant and terrestrial planets, linked, via a *real-time* shared development environment with the internationally recognised UK weather and climate prediction institute the Met Office. My work has been recognised by invitation to present at 7 conferences and deliver 19 seminars. I have solely organised and delivered a ~30 delegate workshop, and sit on the UK Exoplanet Community Meeting SOC. I have been awarded a total of four secondments of staff from the Met Office and resources equivalent to ~£500,000 and over ~£11 Million as PI & Co-I, respectively (gross totals). Finally, my work has enhanced interactions between the astrophysics, and Earth science communities at Exeter, and more widely in the UK. For example, I am currently working on a 'white paper' describing the state of exoplanet modeling in the UK, and an invited review for the journal "Living Reviews in Computational Astrophysics" detailing numerical techniques used in exoplanet atmosphere modeling. I have also contributed important work to the observational and theoretical understanding of stellar evolution.

Throughout my career I have contributed extensively to undergraduate teaching. I am a Fellow of the Higher Education Academy, and have been nominated for a teaching award. I have constructed and co-delivered an astrophysics laboratory module, computing module and practical lab-based module for final year Physics & Astronomy students. I have also led tutorials for final year undergraduates, and led on various 'skills' based courses. Finally, I have supervised 10 undergraduate research projects, and am currently supervising an additional 8. I also oversee all facets of the student experience in our undergraduate first year, as Stage One Coordinator, incl. developing and reviewing module content. In addition to this, I oversee the entirety of our admissions process dealing with applications, interviews, offers etc. as Admissions Tutor.

Finally, I have worked as part of our 'inclusivity committee', within the discipline of Physics and Astronomy, for over 6 years. Within this role I have developed initiatives such as "promotion workshops" for postdoctoral researchers, and co-authored submissions to the Institute of Physics: Juno and Athena Swan gender equality programmes.

Academic Career: Positions

Senior Lecturer	Univ. of Exeter	Apr. 2015–Present
Lecturer (<i>proleptic</i>)	Univ. of Exeter	Jan. 2014–Apr. 2015
Research Fellow (<i>Supvr:</i> Prof. I. Baraffe)	Univ. of Exeter	Jul. 2011–Jan. 2014
Assoc. Research Fellow (<i>Supvr:</i> Prof. T. Harries)	Univ. of Exeter	Jul. 2008–Jul. 2011

Academic Career: Qualifications

PCAP	Univ. of Exeter	Nov. 2017
Postgraduate Certificate in Academic Practice		
PhD	Univ. of Exeter (<i>Supvr:</i> Prof. T. Naylor)	Sep. 2004–Jun. 2008
<i>Title: Using colour–magnitude diagrams to study the evolution of young stellar populations</i>		
MPHYS (hons), 1st Class	Univ. of Exeter (<i>Supvr:</i> Prof. W. Barnes)	Sep. 1999–Jun. 2003
<i>Dissertation subject: surface plasmon resonance</i>		
Two Dean's commendations & school prize for outstanding results		
A–Levels	Pool School & Community College	Sep. 1996–Jul. 1998
Mathematics A , Further Mathematics A , Physics A & Chemistry C		

Research: Funding & Resource Awards

Funded PI Proposals:		Est. Value
2018	<i>Impact fund: STFC consolidated grant</i>	~£28 000
2017	<i>Impact fund: IIB and CEMPS (Internal)</i> “Exoplanet Explorer” (visualisation with At-Bristol & Engine House)	~£21 000
2017	<i>Met Office Academic Partnership (MOAP)</i> , two staff one-day-per-week	~£20 000
2016	<i>QR Small equipment fund (Internal)</i> : Atmospheric Modelling Server	~£6 000
2016	<i>Leverhulme Research Project Grant</i> (I. Baraffe, J. Manners, D. Apai) “Examining cloud induced variability in Brown Dwarfs”	~£250 000
2016	<i>Met Office Academic Partnership (MOAP)</i> , two staff one-day-per-week	~£20 000
2016	<i>MOAP</i> , one staff two-days-per-week (6mnths)	~£10 000
2015	<i>MOAP</i> , one staff one-day-per-week	~£10 000
2015	<i>Univ. Exeter PhD Studentship (Internal)</i>	~£80 000
2014	<i>MOAP</i> , two staff one-day-per-week	~£20 000
2013	<i>MOAP</i> , two staff one day per week	~£20 000
2011	<i>William Herschel Telescope (WHT)</i> , multi-fibre spectroscopy	~£51 000
Funded Co-I Proposals:		Est. Value
2018	<i>UCSC: OWL Summer Programme</i>	PI: S. Lines ~£5 000
2017	<i>STFC Consolidated Grant</i>	PI: I. Baraffe ~£1 800 000
	<i>Sub project co-I</i>	PI: H. F. Lambert [~£300 000]
	<i>Sub project co-I¹</i>	PI: D. K. Sing [~£300 000]
	<i>Sub project co-I¹</i>	PI: E. Hébrard [~£300 000]
2017	<i>Spitzer</i> 80 hours phase curve, DDT	PI: Dr. T. Evans ~£1 800 000
2017	<i>International Excellence Scholarship (Internal)</i>	PI: M. Rice (Declined) [~£131 000]
2017	<i>DiRaC</i> , ~75 million CPU hours	PI: Prof. M. Bate ~£3 000 000
2016	<i>ESO SPHERE</i> , imaging 11 hrs	PI: E. Matthews ~£35 000
2016	<i>ESO FORS2</i> , Large prog., spectroscopy ~13 nght	PI: Dr. N. Nikolov ~£400 000
2016	<i>ESO SPHERE</i> , polarisation 1 night	PI: Dr. S. Hinkley ~£30 000
2016	<i>ESO SPHERE</i> , <i>NACO DDT</i> , imaging 8 hrs	PI: Dr. S. Hinkley ~£25 000
2015	<i>ESO SPHERE</i> , imaging 16 hrs	PI: Dr. S. Hinkley ~£50 000
2015	<i>ESO SPHERE</i> , imaging 16 hrs	PI: Dr. S. Hinkley ~£50 000
2015	<i>Terra Hunting Experiment</i> , (pending)	PI: Prof. D. Queloz [~£5,000,000]
2015	<i>DiRaC</i> , ~75 million CPU hours	PI: Prof. M. Bate ~£3 000 000
2015	<i>MONSooN</i> , ~320 000 CPU hours/year (rolling)	PI: Prof. P. Palmer ~£14 000
2015	<i>MONSooN</i> , ~160 000 CPU hours/year (rolling)	PI: Dr. J. Manners ~£7 000
2014	<i>ESO SPHERE</i> , imaging 18 hrs	PI: Dr. S. Hinkley ~£55 000
2012	<i>DiRaC</i> , ~26 million CPU hours	PI: Prof. M. Bate ~£1 000 000
2012	<i>Isaac Newton Telescope (INT)</i> , photometry	PI: Prof. T. Naylor ~£25 000
2010	<i>Liverpool Telescope (LT)</i> , photometry	PI: Prof. T. Naylor ~£8 500
2009	<i>Gemini</i> , multi-object spectroscopy	PI: Prof. T. Naylor ~£51 000
2008	<i>WHT</i> , multi-fibre spectroscopy	PI: Prof. T. Harries ~£17 000
2008	<i>WHT</i> , multi-fibre spectroscopy	PI: Prof. T. Naylor ~£51 000
2008	<i>INT</i> , photometry	PI: Prof. T. Naylor ~£30 000
2008	<i>INT</i> , photometry	PI: Prof. T. Naylor ~£5 000
2007	<i>INT</i> , photometry	PI: Prof. T. Naylor ~£30 000
2007	<i>WHT</i> , multi-fibre spectroscopy	PI: Prof. T. Harries ~£17 000
2006	<i>WHT</i> , multi-fibre spectroscopy	PI: Prof. T. Naylor ~£102 000
2005	<i>WHT</i> , multi-fibre spectroscopy	PI: Prof. T. Naylor ~£51 000
2005	<i>Gemini</i> , multi-object spectroscopy	PI: Prof. R. D. Jeffries ~£51 000

(1) Unlisted Co-I, but contribution vital, & recognised internally. [] denotes items not in gross totals.

Research: Publication Metrics (NASA ADS: *03/05/18*)

Research: Publications

Refereed Publications in Major Journals (reverse date ordered)

40 In draft:

N. J. Mayne; F. Debras; et al.

TBD: The Breakdown of the Primitive Equations of Dynamics for Hot Super Earths.

39 In draft:

Drummond, B.; **Mayne, N. J.**; Manners, J.; Boutle, I. Baraffe, I.; Tremblin, P.; Sing, D. K.; et al.

TBD: Contribution function for chemical-relaxation model.

38 In draft:

Goyal, J. M.; **Mayne, N. J.**; Sing, D.; Drummond, B.; Tremblin, P.; Amundsen, D. S.; et al.

TBD: A library of self-consistent forward exoplanet atmosphere models.

37 In draft:

Goyal, J.; Wakeford, H.; Lewis, N.; Sing, D.; **Mayne, N.**; et al.

(abridged) Generic forward model grid of exoplanet transmission spectra

36 In draft:

Debras, F.; **Mayne, N.**; Baraffe, I.; Mourier, P.; Chabrier & G.; Laibbe, G.

Super rotation on hot Jupiters: robustness of a Matsuno-Gill acceleration

35 In draft:

Debras, F.; **Mayne, N.**; Baraffe, I.; Goffrey, T.; & Thuburn, J.

(abridged) Eigenvectors, Circulation and Linear Instabilities (ECLIPS3D).

34 Submitted to PASP:

Bean, Jacob.; Stevenson, Kevin B.; Batalha, Natalie M.; et al. incl. **Mayne, Nathan.**

The Transiting Exoplanet Community Early Release Science Program for JWST

33 In review for publication in A&A:

Lines, S.; Manners, J.; **Mayne, N. J.**; Goyal, J.; Carter, A.; Boutle, I.; Lee, G.; et al.

(abridged) Exo-nephology: a transmission spectrum of a simulated cloudy HD 209458b.

32 Accepted for publication in Nature:

Nikolov, N.; Sing, D.; Fortney, J.; Goyal, J.; Drummond, B.; Evans, T.; et al. incl. **Mayne, N. J.**

A precise sodium abundance for a cloud-free exoplanet.

31 2018arXiv180300226L: **2 citations**

Lines, S.; **Mayne, N. J.**; Boutle, I. A.; Manners, J.; Lee, G.; Helling, Ch.; et al. incl. Kerslake, M.

Simulating the cloudy atmospheres of HD 209458b and HD 189733b with the 3D Met Office GCM.

30 2018arXiv180101045D: **1 citation**

- Drummond, B.; **Mayne, N. J.**; Baraffe, I.; Tremblin, P.; Manners, J.; Amundsen, D. S.; et al.
(abridged) The effect of metallicity on the atmospheres of exoplanets.

Naylor, Tim; **Mayne, N. J.**; Jeffries, R. D.; Littlefair, S. P.; Saunders, Eric S.
New methods for determining the ages of PMS stars.

Notes: left column: running total, primary/lead author underlined (in REF unit of assessment). Due to publisher error citations for 2014GMD.....7.3059M incorrectly recorded. Underlined authors are undergraduates at time of publishing e.g., Lewis, N. T.

Research Impact: Case Studies

“Exoplanet Explorer”: is an effort to produce a computer animated short movie, similar to the “Wanderers” produced by Erik Wernquist which has been viewed almost 6 million times, but featuring exoplanet exploration. I am also working to combine this with a game platform allowing the introduction of elements of our world leading exoplanet research with an in-built measure of the impact we are having. This proposal was assessed by members of the University of Exeter IIB (Innovation, Impact and Business) impact team, and rated as potentially 3*/4*, and has been awarded £15 000 from the IIB fund (as well as ~£6 000 contribution from the College of Engineering, Mathematics and Physical Sciences, CEMPS). This was followed by ~£28 000 provided via the STFC consolidated grant. I am currently working with colleagues across IIB and external organisations (e.g. Engine House, Kalieder, At-Bristol) to realise this.

Current outputs include:

- NASA & Univ. of Exeter press release viewed over 70,000 times in the first week.
- 360° immersive animations of a young Jupiter-type planet, an evaporating hot Jupiter, a view within the cloud deck of a hot Jupiter, a super-Earth waterworld, a lava planet, 55 Cancri e and Trappist 1e (8K) (Trappist 1e (4K))
- A mini-documentary in 360° on exoplanets, viewed ~1,000,000 times in the first 6 months.

Outreach: I am also a key member of the astrophysics group’s outreach focused impact case monitoring the effect of our activities both directly through feedback etc., and indirectly through the higher education access database (HEAT). Recent key contributions I have made to this case are the development of several short concept videos, and the co-creation of a Physics youtube channel. It is anticipated that many of my engagement activities will be included in this case.

Research Impact: Engagement

- Talk at National Space Centre, Space Late event, *Jun. 2018*
- Talk at NEXUS Camborne Science & International Academy *May. 2018*
- Pint of Science talk, Exeter *May. 2018*
- Talk at St Johns International School, Sidmouth Apr. 2018
- Promotional video for Centre for Intermedia and Creative Technology (CITC), Apr. 2018
- Story in CITC Newsletter, Apr. 2018
- Article in University of Exeter Alumni Magazine, Mar. 2018
- Physics Progression Programme lecture, Jan. 2018
- Presentation at Withycombe Raleigh CofE School, Exmouth, Oct. 2017

- Presentation at New Scientist Live! Event, Sep. 2017¹
- Presentation at Eden Project “Journey into Space” exhibition, Cornwall, Aug. 2017
- Presentation to U3A (University of the Third Age), Exeter, Jul. 2017
- Judge of Ogden Trust Science Essay Competition, Falmouth, Jul. 2017
- Presentation at “Year 7 Space Day” (Exeter College & Surrounding Schools), Exeter, Jun. 2017
- Invited talk at National Student Space Conference, University of Exeter Mar. 2017
- Evening Lecture, Thomas Hardy School Dorchester, Dec. 2016
- Presentation at Kaleider collaborative studio, Nov. 2016
- Presentation at Communication Skills Course, Oct. 2016
- Evening Lecture, Camborne Science and International Academy, Sep. 2016
- Mock Interviews for A-Level Students Sep. 2016
- Short Concept Videos for Astrophysics outreach, Aug. 2016
- Part of team which set up, and contributes to “Physics at Exeter” youtube channel, Aug. 2016
- Presentation and workshop for schools and public, Penryn Campus, Univ. of Exeter, Jul. 2016
- Plymouth Astronomical Society, Feb. 2016.
- Public Presentation for Stargazing Live! event, Univ. of Exeter, Jan. 2016
- Public Christmas Lecture, Devonport High School for boys (attendance from several school throughout Plymouth), Dec. 2015.
- Stoke Hill Junior School, Nov. 2015.
- Torbay Astronomical Society, Oct. 2015.
- Britain Needs Scientists, Plenary Presentation Jul. 2015, Jul. 2016
- School Physicist of the Year, Presentation Jul. 2015, Jun. 2017, Jun. 2018
- Pint of Science talk, Exeter May. 2015
- Presentation at Norman Lockyer Observatory, Sidmouth Apr. 2015
- Disney Futures Workshop, Feb. 2015
- Stoke Hill Junior School, Feb. 2015
- Cornwall Amateur Astronomy Society, Mabe, Jan. 2015
- Christmas Lecture, University of Exeter, Dec. 2014
- Presentation to Senior Physics Society, Charterhouse School, Nov. 2014
- Britain Needs Scientists, presentation to A–Level students on research, 2013, 2014.
- TED-style talk for St Luke’s Science week, 2014
- Hosted Tavistock school visit, 2013, 2014.
- Talk to home educated, and behavioural problem group, Redruth, 2014.
- Careers in physics at Truro College, 2014, 2015, 2016.
- 3–minute wonder competition at Festival of Science. *invited heat finals:declined.*, 2013
- Presentation to A–Level students on research, 2013
- Presentation to Exwick heights school reach group, 2013
- Presentation at national dark skies reserve, 2013.
- Badminton School, seminar, 2012.
- Cafe Scientifique, Sidmouth, 2012.
- Cornwall Astronomy Society, seminar, Penryn, 2011.
- Astronomy Society, seminar, Callington, 2011.
- Astronomy Society, seminar, Tiverton, 2011.
- Brannell Astronomy Society, seminar, Callington, 2010.
- Open evening, international year of astronomy, organisation & overview presentation, University of Exeter, 2010.
- School visit, seminar & workshop, Uffculme, 2010.
- Open evening, international year of astronomy, organisation & support, Univ. of Exeter, 2009.
- International School, seminar, Dubai, 2009.
- Yeovil College, ‘Meet the Scientist’, poster & workshop, 2008.

Education

¹<https://live.newscientist.com/talks> ~30,000 visitors

- Fellow of the Higher Education Academy (F-HEA), 2017
- Nominated for teaching award, Univ. Exeter 2010

Third year tutorials, 4 groups (1 hr/week each), 20 students (Bsc & Mphys)	2015–2016
Lead teaching assistant: general problem class (lectures & tuition)	2011
Teaching assistant: astrophysics lab (2 nd year) (preparation, marking & delivery)	2008
Lead teaching assistant: C-programming lab (preparation, marking & delivery)	2008
Teaching assistant: astrophysics lab (1 st year), (marking, delivery)	2007
Lead teaching assistant: practical physics lab (preparation, marking & delivery)	2005–2011
Communication skills course (organisation and lectures)	2004–2016
Pre-University physics course (organisation and/or lectures)	2004–2016

Undergraduate Supervision:

Primary Current:

Jake Eager & David Reichalt	MPhys: Masters Project (Exo)Planet climatology	2018– <u>Jul. 2019</u>
Scott Larcombe, Harry McCrea Duncan Lyster & Calum Smith	MPhys: Masters Project (Exo)Planet climatology	2016– <u>Jul. 2018</u>

Co-supervision Current:

Stephanie O’Neill & Daniel Gymer	NatSci, Masters Project: Earth-Like exoplanets <i>co-supervisor: Dr F. H. Lambert</i>	2018
-------------------------------------	--	------

All Completed:

Liam Crossling & Dan Barlow	NatSci, Masters Project: Early–Mars <i>co-supervisor: Dr F. H. Lamberts</i>	2016–2017
Nestor Arsenov	Summer Studentship: Exoplanets & chemistry <i>co-supervisor: Dr E. Hebrard</i>	2017
Max Kerslake	Summer Studentship: Exoplanets & clouds <i>co-supervisor: Dr S. Lines</i>	2017
Neil Lewis	Summer Studentship: convection in exoplanets <i>co-supervisor: Dr F. H. Lambert</i>	2017
Neil Lewis**	Summer Studentship: convection schemes <i>co-supervisor: Dr F. H. Lambert</i>	2016
Matthew Read & Lewis Ireland**	EPSRC summer students Brown Dwarfs: radiative transfer	2013 (8 weeks)
Tom Wilson & Sam Horaib	MPhys: ages of young stars <i>co-supervisor: Prof. T. Naylor</i>	2011–2013

* & ** Article published in JUST (<http://emps.exeter.ac.uk/just/>)

Postgraduate Supervision

Postdoctoral Current:

Dr. Stefan Lines	Postdoctoral: exoplanet modelling Clouds in Brown Dwarfs, & gas giants	2016– <u>Apr. 2019</u>
Dr. Ian Boutle	Expert Scientist, Met Office Secondment Atmospheric modelling: clouds	2016–present
Dr. James Manners	Senior Research Scientist, Met Office Secondment Atmospheric modelling: radiative transfer	2013–present
Dr. Ben Drummond	Postdoctoral: exoplanet modelling	2017– <u>Nov. 2018</u>

PhD Current:

Daniel Tootill	PhD: exoplanet modelling <i>co-supervisor: Dr. H. Lambert</i>	2018– <u>Jun. 2021</u>
Simon Lance	PhD: exoplanet modelling <i>co-supervisor: Prof. M. Browning</i>	2018– <u>Jun. 2021</u>

Jayesh Goyal	PhD: exoplanet modelling <i>co-supervisor: Prof. D. Sing</i>	2015–Apr. 2019
Florian Debras	PhD: exoplanet modelling <i>co-supervisor: Prof. G. Chabrier</i>	2016–Jun. 2019
Mark Phillips	PhD: chemistry in (exo)planet atmospheres <i>co-supervisor: Prof. I. Baraffe</i>	2016–Jun. 2019
Jessica Spake	PhD: hot Jupiter Atmospheres <i>co-supervisor: Prof. D. Sing</i>	2015–Jun. 2019
<hr/> <i>Postdoctoral Completed:</i>		
Dr. Paul Cresswell	Systems scientist, Met Office Secondment Restructuring the idealised UM	2016–2017
Dr. Chris Smith	Senior Research Scientist, Met Office Secondment Atmospheric modelling: dynamics	2013–2015
<hr/> <i>PhD Completed:</i>		
Dr. Darryl Sergison	PhD: Spectral indicators of stellar age <i>co-supervisor: Prof. T. Naylor</i>	2013–2016
Dr. David S. Amundsen	PhD: exoplanet modelling <i>co-supervisor: Prof. I. Baraffe</i> (moved to postdoc: Columbia Univ.)	2012–2015
Dr. Ben Drummond	PhD: atmospheric chemistry <i>co-supervisor: Prof. I. Baraffe</i> (moved to postdoc: Univ. Exeter)	2013–2017
Dr. Cameron Bell	PhD: Ages of young clusters <i>co-supervisor: Prof. T. Naylor</i> (moved to postdoc: ETH, Zurich)	2009–2012
<hr/> <i>MSc Completed:</i>		
Charlie Sweetland	MSc: Advanced Mathematics Climates of Earth-Like exoplanets	2015
<hr/> <i>(Graduated PhD/MSc student's current academic institute given where student continued in academia)</i>		

Leadership & Management: Institutional Responsibilities

Global Systems Institute, Academic Working Group (<i>deputy for Prof. I. Baraffe</i>)	Jan. 2018–present
Member of Centre for Intermedia and Creative Technology Network, Univ. Exeter	Jan. 2018–present
Admissions Tutor, Physics & Astronomy, Univ. of Exeter	Sep. 2016–present
Awarded: “Above & Beyond” Bronze award (£500).	
Implemented cut at AAB+, returned highest tariff entrant cohort, 2017/2018	
Stage One Coordinator, Physics & Astronomy, Univ. of Exeter	Sep. 2016–present
Assistant Director of Education, Physics & Astronomy, Univ. of Exeter	Sep. 2016–present
Inclusivity Strategy/Writing Group, Physics & Astronomy, Univ. of Exeter	Sep. 2013–present
Inclusivity Working Groups, Physics & Astronomy, Univ. of Exeter	Sep. 2012–present
Discipline Awarded: Juno Champion Status (2018)	
Discipline Awarded: Athena Swan Bronze (2015)	
Postdoctoral Secondary Facilitator, CEMPS, Univ. of Exeter	Sep. 2010–Apr. 2014

Leadership & Management: Initiatives & Contributions

“Alumni Talent Network”, Univ. of Exeter	In development
UCAS Open Day Sample Lecture, Univ. of Exeter	Jun. 2016
Pre-University Physics Course Sample Lecture, Univ. of Exeter	Jul. 2015, Jul. 2016
Athena Swan: Engagement & Awareness day, Univ. of Exeter	Mar. 2015, 2016
Institute of Physics Unconscious Bias Workshop, Loughborough Univ.	2015
Promotion Workshops Series (organiser & presenter), Univ. of Exeter	2014–2017
UCAS Open Day, Physics & Astronomy, Univ. of Exeter	2014–present

<i>Interaction & discussion sessions</i>	
UCAS Admissions, Physics & Astronomy, Univ. of Exeter	2014–present
<i>Interviews, presentations & discussions sessions</i>	
Natural Sciences Offer-Holder visit day, Univ. of Exeter	2014
<i>Presentation and discussion sessions</i>	
Research Interactive (undergraduates), CEMPS, Univ. of Exeter	2013
Research Showcase (under- & post-graduates), CEMPS, Univ. of Exeter	2013, 2014, 2015
Research Speed-Updating (staff), Univ. of Exeter	2013
UCAS <i>general</i> , Physics & Astronomy, Univ. of Exeter	1997–present
<i>Tours, hosting and external visits</i>	

Institutional Responsibilities: Panels & Reviewing

Interview panel for technical support position, Physics & Astronomy, Univ. of Exeter	2018
Interview panel for PDRA positions, Physics & Astronomy, Univ. of Exeter	2016,2017,2018
Interviewer for group PhD positions, Physics & Astronomy, Univ. of Exeter	2016
Internal referee: CEMPS, Univ. of Exeter	-
<i>Leverhulme RPG, STFC Rutherford fellowship & Royal Society URF proposals</i>	
XM ² CDT 6 month project presentations chair, CEMPS, Univ. of Exeter	2014

External Recognition: Media

- Press Release on Virtual Reality Video reaching 1 Millions views, Apr. 2018
- Press Release on “Exoplanet Explorer” animations, Oct. 2017
- Produced Animations with Engine House² and At-Bristol³ for joint NASA & University of Exeter press release. Featured in e.g., Express, Verge, Sci News, Daily Star, IB Times, Telegraph, New Scientist, Science Alert, Science Daily, Sky at Night, Sky and Telescope, IFL Science, Forbes, NBC, Wired, Mirror, Phys Org, Inverse, Physics World, Astronomy Now etc. Aug. 2017
- Interviews for WIRED, IFLScience, International Business Times, Financial Times, VICE, BBC World Service & BBC Radio Devon, Jun. 2017
- Press release on research, University of Exeter, May. 2017
- Interview for “Research Fortnight”, Dec. 2016
- Article for “The Conversation”, Oct. 2016.
- RadioEXE interview on Searching for life on exoplanets, Oct. 2016
- TED^x Truro, presentation Sep. 2016
- Coordinated NASA/University of Exeter press release on Research publication, Sep. 2016
- Interviews with Radio Devon & Western Morning News, Perseid Meteor Shower, Aug. 2016
- Radio Exe interview (Perseid Meteor Shower), Aug. 2015, Aug. 2016.
- BBC Breakfast News interview & special comments (partial eclipse), Mar. 2015
- Appearance on BBC Stargazing Live! Programme, filmed segment, Jan. 2014.
- News article, Met Office research news, 2014
- News article, University of Exeter research news, 2014.
- News article, Express and Echo, 2014.
- Interview for Devon Life magazine, 2014.
- Interview for BBC Radio Cornwall, 2014.
- Interview for BBC Radio Devon, 2014.
- Research image as front cover of Astronomy & Astrophysics Vol 561, Jan. 2014.
- News article, Daily Mail, 2012

Invited Talks: Conferences

- Jul. 2018 Spectroscopy of Exoplanets, Cumberland Lodge (University College London)
- Feb. 2018 Met Office Academic Partnership Poster & Presentation Event, Met Office
- Jan. 2018 Dynamics of Rotating Fluids: ‘Dynamics of giant planets’
University College London
- Jun. 2017 Planetary atmospheres: on Earth, in the solar system, and on exoplanets
Wenner-Gren Center, Stockholm
- May 2017 Climate science, atmospheres and life: from the Earth and beyond
University of Cambridge
- Apr. 2017 Atmospheres of Disks and Planets 2017: Chemistry, Dynamics and Observations
Ringberg (MPIA), Germany
- Jul. 2016 **Plenary** “CliMathNet” International Conference, University of Exeter

Invited Talks: Seminars (*exoplanet atmospheres, unless stated*)

- May. 2018 Astronomy & Astrophysics Group, University of Warwick
- Apr. 2018 Fluids & MHD seminars, University of Leeds
- Oct. 2016 Astrophysics Research Institute, Liverpool John Moores University
- Jun. 2016 Department of Physics and Astronomy, University of Leicester
- May. 2016 Centre for Atmospheric Science, University of Cambridge
- Dec. 2015 Met Office, Exeter. *Delivered by PhD student Ben Drummond*
- Oct. 2015 Institute for Astronomy, The University of Edinburgh, Royal Observatory
- Feb. 2015 Atmospheric, Oceanic and Planetary Physics, Oxford University
- Dec. 2014 Planetary Science, Department, Caltech
- Dec. 2014 Institute for Planets and Exoplanets, UCLA
- Dec. 2014 LCOGT, Santa Barbara
- Dec. 2014 Department of Astronomy and Astrophysics, UC Santa Cruz
- Dec. 2014 NASA Ames
- Nov. 2014 Lunar and Planetary Lab, University of Arizona
- May. 2014 School of Physics and Astronomy, University of St. Andrews
- May. 2014 Geophysical and Astrophysical Fluids Department, University of Exeter
- Jun. 2012 Applied Mathematics Department, University of Exeter
- Jul. 2012 Met Office, Exeter
- Aug. 2009 (*star formation*) Astrophysics Group, University of Keele

Posters (conferences and workshops)

- Jan. 2012 “Exoclimates II”, Aspen Center for Physics
- Oct. 2010 “Constellation Meeting” (*star formation*), Tenerife
- Jul. 2006 “Planet-Disc Connection” (*star formation*), Cambridge University

Contributed Talks (*exoplanet atmospheres, unless stated*)

- Apr. 2016 “Exoplanet UK community meeting”, Univ. of Exeter
- Mar. 2015 “Met Office/Univ. of Exeter Space Weather day”, Univ. of Exeter
- Apr. 2014 “Exoplanet UK community meeting”, Cambridge Univ.
- Feb. 2014 “Exoclimates, international conference”, Davos Congress Centre
- Sep. 2013 “European Planetary Science Congress”, international conference, Univ. College London
- Sep. 2013 “Mind the gap”, international conference (*invited by organiser*), Hertfordshire Univ.
- May. 2013 “Rotational fluid dynamics: planetary & stellar applications”, workshop, Univ. of Exeter
- Dec. 2011 “GCM & Exoplanets”, workshop, University of Exeter
- Oct. 2010 “Constellation Meeting”, international conference (*star formation*), Tenerife
- Apr. 2008 “National Astronomical Meeting” (*star formation*), Belfast

Selective Meeting Attendance

- Mar. 2012 Royal Society Discussion Meeting, London:
“Characterising exoplanets: detection, formation, interiors, atmospheres and habitability”
- Feb. 2012 Royal Society Discussion Meeting, London:
“Dust, Haze and Clouds in Exoplanet Atmospheres”

External Recognition: Duties

Organisation of Scientific Meetings:

- Discussion Session: “Exoplanet Modelling”, UKEXOM, ~30 delegates, St Andrews, Mar. 2017
 - Workshop: “Idealised Planetary Modelling”, ~30 delegates, Univ. Exeter, Feb. 2016
 - SOC (Scientific Organising Committee): EWASS symposium (Liverpool, Apr. 2018), UKEXOM (Oxford, Mar. 2018), UKEXOM (Univ. Exeter Apr. 2016), GCM workshop (Exeter 2011)
-

Commissions of Trust:

- **‘White Paper’: UK Exoplanet Modelling author (in –prep).**
- **Invited to write review article for “Living Reviews in Computational Astrophysics (LRCA)”, 2017-2018**
- Panel member for discussion session: “Learning from Exoplanets”, CliMathNet, Jul. 2016
- ESO OPC Panel Co-Chair (P97-C4, P98-C2) 2015/2016 (requested P99-declined)
- Referee: ApJ, MNRAS, PASA, Royal Society (URF), Swiss National Supercomputing Centre (CSCS), NASA (NSPIRES), STFC, NWO (Vidi)
